How BN Works for Your Pharmacy

BN turns prescriptions into nearby pharmacy orders in four simple steps helping customers move quickly from scan to purchase while your store gets more visibility, more orders, and more fulfilment opportunities.

Scan Rx via BN App | **Find Nearby Chemist** | **Place Order** | **Fulfill & Earn**

User Scans Prescription

No manual typing required. Instant reading of prescriptions.

Nearby Chemists Shown

Users see your store among local options.

User Places Order

Home delivery or store pickup chosen.

Fulfill & Earn

Prepare and deliver or keep ready for pickup.

What Makes BN Different

Four advantages that help BN stand out and drive higher-value pharmacy traffic.

BN Trust + Health Ecosystem

A trusted one-stop experience across diagnostics, doctor consultations, and pharmacy needs.

High-Intent Users

Connect with customers who already have a prescription and are ready to purchase.

Only Relevant Nearby Customers

Reach local customers who are already close by and ready to act.

No Marketplace Clutter

Stand out without competing in a crowded marketplace.

BN

Why Chemists Should Join BN

1

More Orders Without Extra Effort

Direct prescription-based orders from nearby customers.

2

Increase Walk-ins

Store pickup choices drive footfall and add-on sales.

3

Faster Stock Movement

Sell medicines before customers go to competitors.

4

Flexible Discount = More Conversion

Small discounts lead to higher order confirmation versus nearby shops.

5

Build Trust with BN Tag

"BN Approved Chemist" status provides more credibility and premium positioning.

6

Repeat Customers

Refill reminders for chronic patients (BP, diabetes, etc.) create recurring business automatically.

7

Inventory Integration

Seamless stock management connected to the BN platform.
